Product Designer

10 years of crafting products and experiences

WORK EXPERIENCE

Design Strategist and Consultant, PVX Partners

OCT 2024 – PRESENT

Consult and provide **strategic direction** to the product design team, **guiding prioritisation, design quality and end-to-end execution** across PVX’s UA-financing platform.

Translate complex financial concepts, including **funding requests, cohort performance, loan servicing and repayments**, into clear, intuitive workflows for client companies.

Designed **AI-assisted due diligence workflows**, reducing **turnaround time by 25%** and helping teams evaluate funding requests faster.

Partner with product and business stakeholders from discovery through launch, shaping requirements, validating financial logic and reviewing implementation quality.

Founding Product and Design Strategist, AskMyGuru

JUL 2025 – AUG 2026

Created an **AI-powered Vedic wellness** platform that reached **2M+ downloads** with an extremely lean team.

Shipped a **subscription flow that** contributed to more than **half of all depositors**.

Increased **depositor funnel conversion by 100%** in 8 months.

Built short and medium-form astrology content, **improving ROAS**.

Multiply, A Pidilite Venture, Product Design Manager

NOV 2023 – JUL 2025

Led the experience charter for a new tech platform at Pidilite. This platform is designed to study and uplift Woodworking Contractors and Interior Designers by creating digital products for them.

Integrated Lean UX principles into the Agile Development Processes, improving the scrum team’s velocity.

Led UX efforts on building the **product strategy**. **Designed a new IA** and creating **revenue funnels which led to a platform of 70K+ woodworking contractors with 14% M1 retention**.

MPL, Lead Product Designer

SEP 2019 – SEP 2023

Defined design processes, cultivating a culture that thrives on data-insights and user focus to deliver impactful features like:

Gaming asset marketplace which reached **1 million transactions within 7 months** of launch.

MPL trust perception features, improving the Net Promoter Score (NPS), with **promoters rising from 24.6% to 31.7%**.

Responsible Gaming user journeys to safeguard **players' mental and financial well-being**.

Optimised user flows, **improving game registration by 12%**.

AJIO, Sr. Product Designer

JUN 2018 – AUG 2019

Conducted **design research** for offline shopping experiences and **implemented kiosk desktop interfaces**, tailored for physical stores currently deployed across **550+ Reliance Trends stores** spanning 160 cities.

Conceptualised a **novel navigation interface to integrate AJIO LUXE** (luxury segment) into a single app, aiding seamless discovery and upselling of products/brands.

Reduced product returns (12%↓) by enhancing the 'Return & Exchange' experience through the **seamless integration of replacement flow**.

Happay, acq. by MMT, Product Designer

MAY 2016 – MAY 2018

Designed the information architecture and product flows for an enterprise expense management system which enabled Happay to **onboard MNCs including Adani Group, PWC, Oxford University Press**.

Established the Product Design vertical and implemented processes and design delivery systems.

Created a **scalable Design System** to bring about visual consistency across the product and **reduce frontend development timelines**.

Performed qualitative research through **user interviews, questionnaires, and card sorting exercises**.

SKILLS

Design: User experience • User interface • User flow • System design • Wireframe & mockups • Data visualisation

Prototyping: Rapid prototyping using Figma, Invision, Keynote

Research: Data analysis of user flows & persona hypothesis • A/B Testing & Experiment • Qualitative Analysis using User interviews & Play-tests • Card Sorting

Collaboration: Whiteboard brainstorming sessions • Organising internal/external play-tests • Collaborated with product management, marketing and customer support teams

EDUCATION

NID, Bangalore

2014 – 2017

M. Design in Information Design

IIIT, BBSR

2009 – 2013

B. Tech, Information Technology
